SUMMARY

Master of Science candidate in Artificial Intelligence. Focus on evidenced, measurable work.

EDUCATION

Nanyang Technological University — Master of Science in Artificial Intelligence, expected graduation 2027

SKILLS

Python, machine learning, deep learning, PyTorch, TensorFlow, scikit-learn, natural language processing (NLP), MLOps, feature engineering, model evaluation, SQL, Git, Docker, pandas

EXPERIENCE

Sentinel Data — Machine Learning Intern (May 2025 – Aug 2025)

- Applied Python; Applied PyTorch; Applied MLOps on a supervised team project with a documented outcome.

University Research Lab — Student Researcher (Jan 2025 – Apr 2025)

- Applied natural language processing (NLP); Applied model evaluation on a supervised team project with a documented outcome.

Synthetic demo resume. Fictional person, fictional employers, no real personal data. Same text as case AIML-v01_sparse_terse-p00 in data/cases/cases. json, so the browser demo and the A/B/C evaluation use the same instrument.
